

## 2019 SOFTWARE ENGINEER SUMMER INTERNSHIP

Be a part of a dynamic and diverse team that engineers large-scale, complex and resilient technology solutions that drive our global business. You'll help build and optimize digital applications and systems that support millions of customers, clients and employees worldwide.

When you work at JPMorgan Chase, you're not just working at a global financial institution. You're an integral part of one of the world's biggest tech companies. In 16 strategic technology locations worldwide, our team of more than 50,000 technologists design, build and deploy everything from enterprise technology initiatives to big data and mobile solutions, as well as innovations in electronic payments, cybersecurity, machine learning and cloud development. As a firm, we're partnering with FinTech and Silicon Valley tech firms to deliver cutting-edge solutions to our clients and customers. Our \$10.8 billion annual investment in technology enables us to hire people to create innovative solutions that will not only transform the financial services industry, but also change the world.

### What to expect

Joining our Software Engineer Internship means you will:

- Begin with an induction covering our tech strategies, products and systems, as well as an overview of our technology community.
- Dive head-first and gain hands-on experience creating innovative solutions that make a difference for our customers, clients and employees.
- Work on agile teams with peers and experienced software engineers to grow your skills, share ideas and innovate with our technology community all over the world.
- Gain deeper insight into what it means to work here through networking events, senior speaker sessions and peer-mentorship programs.

At the end of the summer, top performers may receive the opportunity to join us for a full-time role upon graduation.

Locations you may join:

**Columbus, OH**  
**Chicago, IL**  
**Brooklyn, NY**  
**Houston, TX**  
**Jersey City, NJ**

**New York, NY**  
**Plano, TX**  
**San Francisco, CA**  
**Tampa, FL**  
**Newark/Wilmington, DE**

### About you

If you're ready to put your passion for technology to work in a way that makes a real difference, you'll find your place in our Software Engineer Internship.

Key skills include:

- Computer Science and/or Engineering majors are preferred, while other majors may be considered
- Pursuing a B.A., B.S. or 5th year M.A. or M.S. with expected graduation of December 2019 or June 2020 or participating in a JPMorgan Chase-sponsored training program
- A well-rounded academic background with a preferred minimum cumulative GPA of 3.2 (or prior participation in JPMorgan Chase-sponsored training program)
- Foundational knowledge of programming languages (e.g., Python, Javascript, Java, C++, C#), databases, data structures, and algorithms

- Strong interpersonal and communication skills
- Ability to thrive in a fast-paced, collaborative environment
- Relevant internship experience and/or leadership in school or community organizations

This role is a pipeline to our full-time Software Engineer Program, which is not eligible for employer immigration sponsorship. If you will require employer immigration sponsorship after completing your degree, you do not meet the basic requirements of this summer internship role.

## Join us

At JPMorgan Chase, we're creating positive change for the diverse communities we serve. We do this by championing your innovative ideas through a supportive culture that helps you every step of the way as you build your career.

We value the unique skills of every employee, and we're building a technology organization that thrives on diversity. We encourage professional growth and career development, and offer competitive benefits and compensation. If you're looking to build your career as part of a global technology team tackling big challenges that impact the lives of people and companies all around the world, we want to meet you.

## What's next?

We will review applications as they are received and extend offers on a rolling basis. We strongly encourage that you apply early since programs will close as positions are filled.
